

What does EMS do for the mathematical community?

Through the database of job announcements

<http://www.euro-math-soc.eu/jobs>

it helps young mathematicians to find a job.

Provides extensive information on scientific activities: conferences, workshops, schools, etc.

<http://www.euro-math-soc.eu/events>

Organizes and sponsors scientific activities: the ECMs, EMS Lectures, Summer Schools, etc.

<http://www.euro-math-soc.eu/ems-scientific-activities>

<http://www.euro-math-soc.eu/ems-congresses-0>

Awards prestigious prizes: the EMS Prizes, the Felix Klein Prize, the Otto Neugebauer Prize

<http://www.euro-math-soc.eu/prizes.html>

Publishes mathematical journals and books at fair prices, and its members benefit from discounts

<http://www.ems-ph.org/>

Is one of the partners of Zentralblatt MATH

<https://zbmath.org/>

Is the editor of The Encyclopedia of Mathematics wiki

http://www.encyclopediaofmath.org/index.php/Main_Page

Is a partner of EuDML, the European digital mathematics library

<https://eudml.org/>

Is one of the promoters of the network EU-MATHS-IN of Mathematics for Industry and Innovation

<http://www.eu-maths-in.eu/>

And it is lobbying for mathematics at the EU!

The concrete benefits for individual members are

- 20 % discount on books published by the European Mathematical Society;
- discount on subscriptions to journals published by the EMS Publishing House;
- access to the online Journal of the European Mathematical Society;
- EMS Newsletter, published 4 times a year for no extra charge;
- reduced registration fees for the European Congresses;
- reduced registration fee for some EMS co-sponsored meetings;
- free access to Zentralblatt MATH;
- reciprocity memberships available at the American, Australian, and Canadian Mathematical Societies.
